## PRIVACY POLICY

**Effective Date: August 19, 2021**

Welcome to Friends (“Friends,” “Tristone,” “we,” “us” or “our”). This privacy policy (“**Policy**”) describes how Tristone Partners LLC and its related companies (“**Company**”) collect, use and share personal information of consumer users of this platform (the “**App**”). This Policy also applies to any of our other Apps that post this Policy. This Policy does not apply to Apps that post different statements.

- Our Privacy Policy explains how we and some of the companies we work with collect, use, share and protect information in relation to our mobile services, App, and any software provided on or in connection with these services (collectively, the “**Service**”), and your choices about the collection and use of your information.
- By using our Service you understand and agree that we are providing a platform for you to post content, including photos, comments and other materials (“**User Content**”), to the Service and to share User Content publicly. This means that other Users may search for, see, use, or share any of your User Content that you make publicly available through the Service, consistent with the terms and conditions of this Privacy Policy and our Terms of Use (which can be found at <https://www.friendsmobile.org/TermsOfUse.pdf>).
- Our Policy applies to all visitors, users, and others who access the Service (“**Users**”).

### 1. INFORMATION WE COLLECT

We collect the following types of information.

**Information You Provide Us Directly.** We collect your first name, last name, password, email address, as well as other information you directly give us when registering for an account, creating a user profile, communicating with us (such as e-mail messages) or otherwise interacting with the Service. We also collect the User Content (e.g. photos, comments and other materials) that you post to the Service.

**Information Automatically Collected.** We automatically log information about you, your device and your usage. Here are some examples:

**Log file information:** We only log aggregated server usage data for billing purposes. None of the log data is device or user specific.

**Metadata:** Metadata is usually technical data that is associated with User Content. For example, Metadata can describe how, when and by whom a piece of User Content was collected and how that content is formatted. Users can add or may have Metadata added to their User Content including time of post or other data. This makes your User Content more searchable by others and more interactive. Meta data also includes user information including the last signed in date, and the date of user creation.
